

M's CoreAO (antioxidant) boosts your immunity with the most powerful, disease-fighting super nutrients on the planet—mangosteen, acai, arginine, bilberry, grape seed extract, and catechins.

CoreAO•STIKs are formulated to help you and your immune system take life by the horns, hog tie it, and win first place. Even during flu season.

Your immune system is fragile, it has not only sickness to fight against, but free radicals, poor nutrition, stress, and lack of sleep. So treat it right, boost it up with natural superfoods specifically designed to keep it safe from nasties like the flu, the common cold, or that kid who just sneezed on you.

LET'S CHECK OUT THE THINGS THAT **CoreAO•STIK** CAN DO FOR YOU.

- PACKED WITH SUPER NUTRIENTS
- LOADED with ANTIOXIDANTS
- LOW CALORIE
- 100% NATURAL
- UNRIVALED TASTE

DAILY IMMUNITY

mixed berry

30 stiks per box

MANGOSTEEN

A true superfood, this fibrous sweet tropical fruit packs a punch of powerful antioxidants that help fight off infections and viruses, has essential electrolytes, minerals, and vitamins (including A and C). It contains a high amount of fiber, is low in calories and has almost no fat.

ACAI

This famous berry is an antioxidant powerhouse, containing anthocyanins (an antioxidant linked to lowering cholesterol in the blood). Acai helps lower and maintain healthy weight, aids in digestion, is an energy booster, and is even believed to help cellular growth and brain function.

L-ARGININE

L-Arginine takes care of your most vital organ, your heart. It boosts your circulatory and cardiovascular system as well as stimulating repair of damage in your heart. It helps with blood flow, heart health and is a fantastic anti-inflammatory.

GRAPE SEED EXTRACT

This is a powerful antioxidant that acts as an anti-aging agent, and improves eye health. It has the immune boosting nutrient hesperidin, has a punch of vitamin C, and has wonderful cardiovascular properties that help blood flow.

BILBERRY

Packed with antioxidants, bilberry has one of the highest anthocyanin (a cell that protects our cells against diseases) counts. It has also been known to help fight cell inflammation, particularly in the heart and cardiovascular system.

GREEN TEA CATECHINS

One of the most powerful sources of antioxidants, it also has anti-inflammatory properties, immune boosters, and has been known to help cognitive thinking.

CRANBERRY

This berry has high amounts of vitamin C, which is a big immune booster, and also helps cleanse your system.

VITAMIN C

If taken regularly, it helps fight and prevent the common cold and, being high in antioxidants, fights off free radicals and environmental sludge. It also helps collagen production, which is fantastic for healthy skin.

VITAMIN D

Most try to get theirs through milk or the sun, but few absorb enough of this essential vitamin. Vitamin D is critical for fighting off foreign invaders in your immune system, helps protect and prevent disease, and helps with absorption of calcium for healthy bones.

HYDRATION

And with all this you have the added benefit of healthy hydration! Did you know most Americans don't actually EVER drink water. EVER. They get it from some foods, but most rely on soda, coffee, or sugary juice. Things that your immune system may balk at.

Mix ONE M•stik w/16oz of water.
